Thank you for ordering with E-Z Dump, Inc.  
Please read the following documents thoroughly as it explains your charges.

**IMPORTANT: Dumpster Arrival**

Your container should arrive within 24-48 business hours from the time of order, pending circumstances.

**Dumpster Rental:**

When the container is delivered, you're able to keep the container for as long as needed. However, your container must be emptied at least once every thirty days. If there is no activity after the 30 days a \$5.00 per day fee will be incurred starting on the thirty-first day (31) day. The thirty days will restart after each swap. This charge will be in addition to the actual pulls and tonnage of the container. Even if the rental fees are paid, the container will have to be changed out at least once every six months. This helps maintain the container from deteriorating.

**Unsuccessful Container Pick-up or Delivery Attempts:**

A fee will be charged for unsuccessful attempts as a result of vehicles blocking the container, locked gates or fences, low power lines or tree branches, inaccessible driveways or parking lots, and/or any other reason(s) out of our control blocking access to the container. Other reasons include but are not limited to containers overfilled with materials, overweight and can't be picked up by the truck, and debris hanging off sides or out of top of container. Please do not overload the container. The container should not exceed "water level" at the top of the container or "half-full" when contents are brick/block/concrete/asphalt materials. There will be a service charge for driver delay, inaccessible drop-off/pick-up/dig-out. This fee covers the driver's pay, fuel cost, and time for re-routing. You will be contacted about the condition of the container and be responsible for rescheduling service once the issues have been resolved. We are not responsible for the weather; therefore, there will be no adjustments in pricing due to wet debris.

**Prohibited Materials:**

A List of Acceptable/Non-Acceptable items will be provided along with this agreement. **HOUSEHOLD TRASH and TIRES are strictly prohibited in the containers!** If ANY non-acceptable item(s) are found in container, your pricing will adjust to cover cost for proper disposal.

## RELEASE

E-Z Dump, Inc. makes every effort to set a roll-off can in a location that is specified by the property owner, contractor, supervisor, etc. At times, that location may require us to drive over driveways, sidewalks, water meters, landscaping, etc. Also, many times when we are pulling a can, we find job materials have been stacked to close proximity to the can which may become an issue when the can is moved. We will not be held liable for damages to driveways, sidewalks, water meters, utility connections, and landscaping, etc. were we have to drive across to reach the can site, nor will we be held responsible for any job materials left within 15 feet of any can location.

Therefore, the following property owner/contractor or their representative by their signature below, releases E-Z Dump, Inc., Chris Burroughs as President, or any of E-Z Dump, Inc's drivers/employees from any liability or damages, that may arise from setting or retrieving a roll-off container when the container is set in accordance with the property owner/contractor or their representative's directions.
